

ALUMINUM HT SOFFIT SYSTEMS

Superior Strength for an Exceptional Finish

Alside®

OUTSTANDING PERFORMANCE *and* VALUE:

Enduring Beauty That's Virtually Maintenance-Free

When it comes to the roofline, trim and other architectural accents of your home, Alside's Aluminum HT Soffit creates a beautiful appearance while protecting these hard-to-reach areas with a highly durable finish.

ESSENTIAL VENTILATION

Properly installed soffit and fascia promote directional air movement through the eaves and rafters of your home. It eliminates moisture that can cause rotting and decay of the roof's structure, helping your home to stay in great shape inside and out.

OUTSTANDING PERFORMANCE

- Each panel is roll formed from a commercial-grade aluminum alloy sheet and then coated with protective layers, including a corrosion-resistant formula followed by a thermosetting polyester coating.
- Low-luster, satin finish provides excellent resistance to surface marring and scuffing.
- Deeper 1/2" V-groove increases structural performance.
- High-performance alloy will never rot, peel or flake like painted or stained wood.

SUPERIOR TENSILE STRENGTH

Tensile strength is determined with two measurements:

Ultimate Tensile Strength – the maximum force (tension, compression or shearing) applied to a material that results in material failure, such as cracking, splitting and deforming.

Yield Tensile Strength – the force (tension, compression or shearing) that is applied to a material and results in some type of material deformity; the material does not fail and it may return to its normal shape when the force is removed.

QUICK SPECS:

Material and Hardness Rating: Aluminum Alloy 3105 H28

Nominal Gauge: 0.016

Ultimate Tensile Strength (UTS): 32,000 pounds per square inch

Yield Tensile Strength (YTS): 27,000 pounds per square inch

COLORCONNECT® COLOR MATCHING SYSTEM

Refined design options and aesthetic appeal are easily achieved with our ColorConnect Color Matching System. Thanks to painstakingly exact color formulations, these select colors help you match the color of your soffit with other Alside exterior products and accessories.
