

Garden Windows

Custom-Made, Energy-Efficient Windows

Bringing the Outdoors Inside

ENJOY THE PLEASURE OF GROWING FRESH FLOWERS OR HERBS ALL YEAR LONG

See for yourself how a quality-crafted garden window invites the outdoors inside without sacrificing comfort. The deep 17" seatboard makes a great accent area for your favorite plants, while the twin-sealing side vents let you enjoy a refreshing breeze on warm, sunny days. Designed with easy upkeep in mind, the premium vinyl construction won't chip, blister or peel and never needs to be painted.

GARDEN WINDOWS

A Bright Showcase

Sloped top insulated glass (a constant 35 degrees) is tempered for increased safety and structural integrity of the unit.

The head and seatboard are completely assembled for easy installation.

Fully screened, twin-sealing operating casements with exterior glazing increase protection from inclement weather and allow convenient venting for fresh air.

GARDEN WINDOW FEATURES

- Deep 17" seatboard provides ample shelf space.
- Heavy-duty fusion-welded sash and mainframe for superior durability and strength.
- Premium vinyl color delivers long-lasting beauty – won't chip, peel, crack or warp and never needs to be painted.
- Clear 1" thick (nominal) insulated glass unit¹ provides added energy efficiency.²
- Multi-point locking system creates a tight seal for improved insulation and comfort.
- Sloped top insulating unit is tempered for enhanced durability and structural integrity.
- End casements are fully screened for increased weather protection.
- Equal sightlines between operating casements and picture units.
- Adjustable 1/2" thick glass shelf with polished edges is standard in all garden windows.
- Head and seatboard are available in Birch and Oak veneers or White laminate.
- Available in White and Beige, or choose a White exterior with a Light Oak Woodgrain interior.
- All garden windows will have white screens and white hardware.
