THE CHAMCLAD® WAY

We are a Canadian family-owned business where Customer Service and Quality always remain our top priority. We strive to rise above industry standards for durable solutions that our customers are proud to display on their projects. The integration of sustainability objectives throughout the production process and the use of responsibly sourced materials ensure ChamClad products will contribute to a positive impact on the environment.

ChamClad is transforming architectural design and construction practices throughout North America and beyond. Redefining industry norms, our diverse lineup of exterior and interior products set new standards with remarkably lifelike finishes and minimal maintenance needs. These finishes not only elevate visual appeal but also exhibit outstanding weathering performance, resilience against the elements, color retention, long-lasting durability, and impressive resistance to scratches and graffiti.

ChamClad products are crafted in Canada from engineered 100% recycled, rigid PVC. ChamClad is committed to providing sustainable solutions for projects that require high performance and minimal upkeep.

ChamClad products offer exceptional impact resistance, minimal heat buildup, resistance to water absorption, and are impervious to bacteria and mold. They require minimal maintenance with no need for caulking, staining, or painting. ChamClad high-performance panels offer increased defence against elements including fire, wind and hail, protecting your investment for many years to come.
