

**AFFORDABLE
WINDOWS WITH
THE *LOOK AND
FEEL OF LUXURY***

vero™

TRUE QUALITY • TRUE VALUE

- 1 **Cove-molded sash design** gives the appearance of classic wood.
- 2 **Durable, composite locks and keepers** are engineered for long-lasting performance and are designed to resist common issues like chipping and breaking—offering a reliable alternative to traditional diecast hardware.
- 3 **Partitioned, dual-function** sloped sill creates a negative pressure zone to help secure sashes in place and direct water away.
- 4 **Shadow grooved sash welds** offer the look of traditional mitered wood corners.
- 5 **Triple protection weather seal** includes an integral interlock, sill compression bulb seal, and multiple layers of weatherstripping.
- 6 **Full balance covers** conceal internal components for a clean appearance.
- 7 **Integral lift and pull** rails are designed for smooth operation and everyday ease of use.
- 8 **Night latches** help limit sash movement for enhanced safety.
- 9 **Stainless steel coil balance system** supports smooth, quiet sash movement with minimal effort.
- 10 **Multi-chambered vinyl construction** provides long-lasting durability, thermal efficiency, and low maintenance.

11 **Low-profile tilt latches** are concealed for a clean look, but easily engage when needed for cleaning.

12 **Fusion welding** is secured in four points to ensure the frame and sashes are always strong and aligned.

Backed by a transferable, Non-Prorated Limited Lifetime Warranty covering vinyl components, insulating glass, screens, and hardware.

GLASS PACKAGES SPECIFIC TO YOUR NEEDS

Insulated glass units increase the energy efficiency of your windows beyond ordinary clear glass. The lower the U-factor, the less energy you'll need to heat your home. The lower the Solar Heat Gain Coefficient (SHGC), the more you'll conserve air-conditioning.

Triple Pane Glass is up to **50% more energy efficient than dual pane**. Installing triple pane windows also reduces noise from the outside and fading from the sun.
