

Dear Valued Customer,

To continue providing reliable and consistent delivery service, we will be implementing a fuel surcharge on shipments, effective immediately.

This change reflects ongoing increases in transportation-related costs, primarily fuel expenses. These adjustments allow us to maintain the service levels, delivery consistency, and operational reliability you expect from us.

The updated fee structure is tied to the price of diesel fuel and will be based on the U.S. Energy Information Administration’s (EIA) published weekly average. This information is publicly available at: <https://www.eia.gov/petroleum/gasdiesel/>

Diesel Price/Gallon	Fuel Surcharge
Up to \$5.74	\$15
\$5.75 - \$6.49	\$20
\$6.50 - \$6.99	\$25
\$7.00 - \$7.49	\$30
\$8.00+	\$40

We remain focused on operating as efficiently as possible and will continue to monitor these cost drivers closely. As conditions evolve, we will reassess our delivery fee structure accordingly.

We appreciate your continued partnership and understanding. If you have any questions, please reach out to your local branch or sales representative.

Sincerely,
Melissa Minihan
Chief Commercial Officer
